

ITORO-OBONG BASSEY DANIEL

Product Manager | Fintech · AI · SaaS · Cross-functional Delivery

ltorod01@gmail.com · +234 8130312380 · [LinkedIn](#) · [Portfolio](#)

PROFILE

Product Manager with 2 years of hands-on experience owning the full product lifecycle across fintech, AI, SaaS, and cloud infrastructure, with a strong track record of working directly alongside engineering teams to translate product strategy into buildable requirements and prototypes. Brings a grounding in HR and compliance that sharpens product thinking around user trust, risk, and regulatory environments, including UK-specific credentials in FCA Compliance and Product Governance from Thistle Initiatives. Experienced working with data-driven platforms, AI feature integration, and cross-functional teams spanning developers, architects, QA, and DevOps. Delivered measurable outcomes: 18% uplift in user activation validated through A/B testing, 12% increase in sprint velocity, and 30% reduction in revision cycles. CSPO certified.

CORE COMPETENCIES

Product Strategy and Roadmapping · PRD and BRD Writing · UX Direction and Figma Prototyping · User Research and Interviews · A/B Testing · Agile and Scrum · Go-to-Market Strategy · Market Research and Competitive Analysis · Monetisation and Pricing Strategy · AI Feature Integration · Cross-functional Team Leadership · Stakeholder Management · Product Discovery · Sprint Planning and Backlog Management

Technical: Basic HTML, CSS, JavaScript, SQL, Data Analytics (Excel), Postman (API testing), GitHub, Expo Go, Familiar with CI/CD pipelines, cloud workflows, and automated system integrations

Tools: Jira, Confluence, Figma, Miro, ClickUp, Slack, GitHub, Google Workspace, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Product Manager | **CV Sense (DoviLearn Global)** | Hull, UK (Remote) *Aug 2025 – Mar 2026*

AI-powered job matching platform for professionals. Sole PM, owning the full product lifecycle from concept to launch.

- Led the product end to end as the sole Product Manager, owning strategy, UX design direction, and cross-functional execution while communicating directly with developers, stakeholders, and the leadership team throughout the product lifecycle.
- Took on the UX design function in the absence of a dedicated design team, using Figma and AI prototyping tools to create interactive mockups and high-fidelity prototypes that gave stakeholders clarity on product direction, provided developers with precise build references, and enabled real user testing before a single line of code was written.
- Directed product discovery and market research, conducting structured interviews with approximately 6 recruiters from a personal recruitment network alongside formal and informal sessions with job seekers, to validate the roadmap and define feature priorities.
- Designed and A/B tested two onboarding flow versions with over 10 platform testers, driving an 18% improvement in user activation validated through testing data.
- Contributed to the development of an AI agent capable of job description matching, resume optimisation, and candidate-role alignment, improving platform matching accuracy and admin visibility.

Impact: 18% uplift in user activation via A/B testing. Full product lifecycle owned solo from concept to launch, with UX, user research, and prototyping delivered without a dedicated design or research team.

Product Manager (Project-based) | **CloudSania** | Lagos, Nigeria (Remote) *Jun 2025 – Sep 2025*

Cloud infrastructure SaaS platform for preconfigured KONSTACK deployments.

- Developed product positioning and structural frameworks, aligning business goals with technical roadmaps for a cloud infrastructure product.
- Led UX direction for the dashboard and website revamp, defining interaction patterns and interface standards for enterprise-facing screens.
- Authored PRDs and integration strategies for Slack and pipeline tooling, enabling smoother developer workflows and clearer handoffs.
- Designed tiered pricing plans and wallet credit integration, strengthening monetisation architecture and enterprise scalability.
- Created documentation for multi-organisation support, unblocking a key enterprise adoption pathway.

Impact: *Improved onboarding readiness and monetisation clarity. Increased enterprise adoption potential across a cloud SaaS product.*

Lead Product Manager | **FarmFoodHub MVP (Hackathon Project)** | Remote *Jan 2025 – May 2025*

- Coordinated over 100 cross-functional team members, including PMs, Scrum Masters, AI/ML engineers, mobile and web developers, product designers, data analysts, and branding leads, across a 4-week global virtual hackathon sprint.
- Authored PRDs, monetisation strategies, and GTM plans from kickoff through to investor demo.
- Resolved a critical Django backend issue that threatened database stability ahead of the investor presentation.
- Personally scoped, built, and shipped an AI chatbot and currency toggle feature in 3 days when the engineering team hit a blocker, keeping the release timeline intact.
- Provided UX direction throughout, reviewing designs, testing prototypes, and optimising flows across mobile and web platforms.

Impact: *Fully functional MVP delivered in 4 weeks across a 100+ person team. Investor-demo ready, on time and within scope.*

Product Owner (Project-based) | **RecreaX** | United Kingdom (Remote) *Dec 2024 – May 2025*

- Directed agile product delivery for web and mobile solutions, collaborating with Business Analysts to define and prioritise requirements.
- Led sprint planning, backlog grooming, and retrospectives to tighten delivery timelines and improve team throughput.
- Maintained transparent stakeholder communication through structured demos and regular progress reporting.

Impact: *12% increase in sprint velocity through backlog optimisation. 18% improvement in stakeholder satisfaction through consistent, proactive engagement.*

Product Management Intern | **TechWits Clan** | Lagos, Nigeria (Remote) *Jun 2024 – Mar 2025*

- Conducted user research with 20+ participants, achieving a 90% improvement in user satisfaction scores.
- Designed and documented functional requirements for escrow services and instalment payment features.
- Reduced revision cycles by 30% through structured collaboration with design and engineering teams, improving handoff quality and team throughput.

PREVIOUS EXPERIENCE

HR and Compliance Executive | **Kyshi Technologies Ltd (FinTech)** | London, UK (Remote) *Jan 2023 – Dec 2024*

Remote-first fintech company. Worked in an HR and compliance capacity while also gaining exposure to the product function.

- Managed HR operations for 20+ remote employees, developed HR policies, and maintained 100% regulatory compliance across a regulated fintech environment.
- Led payroll administration, improving accuracy and timeliness by 15%, and reduced compliance breaches by 12% through structured policy enforcement and documentation.
- Conducted KYC checks, transaction monitoring, and customer background screening, producing compliance reports that fed directly into product and risk decisions.
- Shadowed the product management function, gaining direct exposure to how fintech products are scoped, prioritised, and iterated, an experience that informed the decision to transition fully into product management.

Impact: *Reduced compliance breaches by 12% and improved payroll accuracy by 15%. Gained foundational fintech product exposure that directly preceded a full PM transition.*

PROJECTS

- Freelance PM Consulting (Ongoing): Providing product management support to early-stage startups and founders, covering PRD writing, product validation, and market assessments.
- Confidential Event Management Product (NDA): Led end-to-end product development for an event-tech platform. Defined MVP scope, authored PRDs and BRDs for event scheduling, ticketing, and attendee engagement modules. Conducted competitive analysis and coordinated design sprints across mobile and web.
- SafeStash (Fintech Mock Project): Authored PRDs, defined feature prioritisation, and designed onboarding flows for a secure escrow-based savings product, with a focus on user adoption strategy.
- Electronic Arts PM Simulation: Developed a feature roadmap and KPI strategy for a gaming product, focusing on engagement, retention, and monetisation optimisation.
- Excelerate Global Summit: Designed a comprehensive event strategy, marketing roadmap, and risk management framework for an international tech summit.
